### MARKETING MATERIALS

#### BALESTRA COLLECTION

Tension and balance achieved in the harmony of a scultural beauty.

Balestra is a floor lamp with a marble and brass base and a satin light gold finish.

The lampshade can be either in opal or colored satin glass or in aluminum in a selection of different finishings.

#### BRIDGET

The brass structure in a light satin gold finish and enchanting brindle or amber onyx inserts is the key player of the floor, desk, table and wall lamp versions

#### CALIPSO

Light finds space through the shades of onyx .

CALIPSO is an amber onyx frame enhanced by LED technology . The wall lamp is available in 3 dimensions , the table lamp version comes with a base in layered open pore wood,

#### CAPRI

The CAPRI table lamp is dressed in handcrafted ceramic according to different techniques.

Mediterranean allure embraced in a discreet and elegant volume, enriched with the matching fabric of the lampshade

## DOME

Geometric discipline and minimal style

The iconic lampshade of the DOME family of lamps is made of satin enamelled glass, available in a selection of colors that can be mixed and matched

## GEA

GEA is a table lamp in natural brushed oak or in glossy black maple, which is enriched by the many facetings of the wood

## GENERATOR

The voice of light moves through brass hemispheres revealing itself in a warm and diffused presence.

New ways of attention to details.

GENERATOR is a suspension lamp made of a satin plexiglass structure and brass hemispheres in bronze finish.

Also available in floor and table versions

## IVY

IVY is a floor lamp with a light source distributed on two levels.

Available in steel structure with a light satin gold finish and coffee table in Emperador marble, or satin bronze finish and coffee table in gold Calacatta marble.

The opal glass diffuser gives lightness to the structure

## LUCCIOLA

The tenderness of light.

LUCCIOLA is a table lamp with structure and metal parts in a light bronzed brass finish and a satin pirex glass diffuser

## NAICA

The gathering of light, metal and stone.

NAICA is a table lamp with a steel structure in a light satin gold finish and a tiger onyx diffuser

Satin black nickel finish and amber onyx duiffuser also available

## TOUR

Lamp with a refined yet unpretentious line and fine finishes, a perfect match for any type of environment.

Tour is the result of the harmony between a slim body in natural brushed oak and its enveloping percalline lampshade

Available in floor, table and abat jour versions.

## ZENA

The graceful brass structure of the ZENA family of lamps is finished in light satin gold or black nickel

The lampshade is in opal glass.
